

1st Scientific Summit on Tobacco Harm Reduction: Novel products, Research & Policy || Athens, Greece

Final Programme

	June 8, 2018		June 9, 2018
8.30-9.00	Registrations	8.30-9.30	Registrations
9.00-9.30	<p>Opening remarks Presentation of FCT Special Issue - Aims of the meeting, Demetrios Kouretas & Konstantinos Poulas Welcome addresses</p>		<p>ORAL PRESENTATIONS Toxicology and aerosol chemistry - Chemical composition of the aerosol, droplet size and distribution, temperature and toxicants, indoor air quality Chair: Stavros Topouzis - Estimation of Second Hand Exposure Levels from Ends and Conventional Cigarette Use Using Computational Modeling, George Karles - Aldehyde emissions in relation with resistance temperature levels and aging in e-cigarettes, Nikolaos Vlachos - Detection and quantitative determination of heavy metals in e-cig refill liquids and aerosols using XRFs, Konstantinos Poulas - Development of an assay to assess genotoxicity by particulate matter extract, Demetrios Kouretas</p>
9.30-11.00	<p>Epidemiology - Facts and Trends Chairs: Eleni Lazaratou & Konstantinos Poulas</p> <p>Invited Lectures Global Burden of Tobacco, Martha Andritsou Smoking prevalence in adolescents - Health & Social Risks, Flora Bacopoulou</p> <ul style="list-style-type: none"> - Adolescent attitudes towards smoking: Psychological and public health aspects, Nadia Magklara - Comparative health study between smokers, vapers and ex-smokers in Achaia prefecture, Greece, Georgios Lagoumintzis 	9.30-11.00	<p>Biomarkers' evaluation in animal or human studies Chair: Dimitrios Stagos - Comparison of the effects of e-cigarette vapor with cigarette smoke on lung function and inflammation in mice, Stavros Topouzis - Electronic cigarette smoking causes less impairment of platelet function and oxidative stress than tobacco cigarette smoking, Gabriela Kostelli</p> <p>Preclinical evaluation Chair: Gregory Sivolapenko - Six-month systems toxicology inhalation/cessation study in APOE mice to investigate cardiovascular and respiratory exposure effects of two reduced risk products compared with conventional cigarettes, Julia Hoeng - Assessment of the gloTM Tobacco Heating Product: Traditional and 21st century toxicology approaches, Ioanna Vardakou - Conventional smoking, vaping and dry eye: A public incidence and awareness study in Greece, Dimitra Makrynioti</p>
11.00-11.30	Coffee Break	11.00-11.30	Coffee Break

11.30-13.30	Tobacco control and smoking cessation Chair: Christos Lionis - Greek Epidemiological Data, effectiveness of educational interventions in primary care, Sophia Papadakis - Multi-disciplinary approaches in Smoking Cessation: first results from the SmokeFreeBrain H2020 project, Panagiotis Bamidis - The "Harm Reduction" Approach, Kostas Athanasakis Panel discussion Introduction: Christos Lionis "Attempting to reduce risky behaviours in multimorbid patients: a high priority for primary care"	11.30-13.30	Clinical Development Chairs: Ignatios Ikonomidis & Panos E. Vardas - Monitoring the transition from cigarette smoking to e-cigarette use: The SmokeFreeBrain study, Alexis Bailey - The Cardiovascular effects of long term e-cigarette use, Kallirrhoe Kourea - Cardiovascular effects observed when using the Tobacco Heating System (THS) compared with Continued Smoking, Patrick Picavet Panel discussion
13.30-14.30	<p style="text-align: center;">Lunch Break & Poster presentation and discussion (I)</p> <ul style="list-style-type: none"> • Biomarkers' evaluation in animal or human studies [03] • Epidemiology & Social Issues [10-14] • Innovation & Novel Products [15] • Preclinical evaluation [18-22] 	13.30-14.30	<p style="text-align: center;">Lunch Break & Poster presentation and discussion (II)</p> <ul style="list-style-type: none"> • Regulatory issues [24-25] • Toxicology and aerosol chemistry [30-39]
14.30-15.00	Keynote Speech: Tobacco control in the 21st century: what it takes Chair: Christos Lionis Speaker: Agis Tsouros	14.30-16.00	Panel Discussion Clinical Practice - The experience of Smoking Cessation Chair: Michael Toumbis Panelists: Martha Andritsou, Angeliki Florou, Kallirrhoe Kourea, Adamantia Liapikou, Ioannis Rotziokos <i>*Session in Greek – interpretation available</i>
15.00-16.30	Public Health Policies and Regulatory Framework Chairs: Athanasios Vozikis & Kostas Athanasakis - The need for a regulatory framework for products related to health: the case of tobacco, Michael Toumbis - Regulatory Framework on Harm Reduction, Nikos Maniadakis - The UK experience, Martin Dockrell - The regulatory framework on harm reduction in South Africa, Kgosi Letlape Panel Discussion	16.00-17.30	Bioethics: Challenges and Obligations Chairs: Demetrios Kouretas & Agis Tsouros Informed choices, Michael Igoumenidis Ethical Issues, Evangelos Protopapadakis Panel Discussion
16.30-17.00	Coffee Break		
17.00-19.00	Evaluation of Novel Tobacco Products Chair: Michael Toumbis - Current classification of e liquids under CLP: the most common hazard classes encountered for the mixtures and the constituents, Apostolos Scarlatos - Clinical evaluation of innovative tobacco products, Konstantinos Ghirtis - An Approach to Navigate the U.S. Food and Drug Administration's Premarket Tobacco Product Application Pathway: e-Vapor Products, Michael Fisher Panel discussion	17.30-18.00	Closing Remarks: Demetrios Kouretas and Konstantinos Poulas Scientific Committee Meeting
